

## Times are a Changin'

By now you have noticed that your PrayerLink and PrayerLink Mobile prayer alert times have changed. This is due to the fact that our device is created to maintain continuity throughout the year around the world.

Most of America recognizes Daylight Saving Time and few places elsewhere. Most places outside the USA do not change their clocks. As such, we decided to ignore the US time change so the entire Christian world remains on the same prayer alert schedule. We will continue to all be alerted at the same moments regardless of time zones and/or times of the year. We feel that these "precious moments" (to borrow a phrase) are sacrosanct.

We see God building toward one-voice prayer and praise with the use of PrayerLink tools. As more and more brothers and sisters in Christ join their voices at the same moments (see the top menu "Alert Time Chart") we are hearing a crescendo of crying out to God.

I encourage you to remain steady as God prompts you. I know it's inconvenient and a change, but what isn't changing these days! And, when is prayer ever convenient? Necessary, yes, but convenient? I suppose it becomes a matter of priority. Not that I have mine in line! I'm a "Do as I say" not "Do as I do" kind of guy. Why do you think I use a PrayerLink and am a subscriber to PrayerLink Mobile? If I were highly disciplined and had my emotions, energy, schedule, and everyone else by the tail, I wouldn't need PrayerLink! But I don't, so I do.

Let us know how God is using PrayerLink in your life. We'd love to post a testimony.
